

Summer breaks never slowed us down! Our programs are still at full speed! We stay true to our mission by providing uninterrupted support to our youth, the change-makers of tomorrow. We also keep putting into action our faith in the power of cooperatives through all our initiatives. Our efforts have been boosted with the recent kickoff of new phases in our programs.

INSPIRING Our Youth

The youth gets introduced to different agricultural practices

Embodying the spirit of cooperation, we took youth from our Agriculture and Education programs on a day out to the Taanayel farms, in a joint effort with the General Directorate of Cooperatives. Participants learnt about the importance of cooperation and about agriculture's pivotal role in our lives.

IRSHAD brings farmers together in Akoura and Kfardebiane

At GNFF, aggregating farmers has always been an essential pillar of our work. In collaboration with the General Directorate of Cooperatives, we gathered apple and fruit growers from Akoura and Kfardebiane and laid the groundwork for the creation of new cooperatives.

Farmers discuss the multiple benefits of unifying their efforts

SOC makes agriculture accessible to all

Following the promising success of its Seed Library Workshop, the Seed of Change virtual trainings continued, teaching participants new seed extraction, preservation and storage techniques.

BASATINE is on full swing

Our team is providing farmers with various trainings to increase efficiency and minimize post-harvest losses.

The difference between conventional farming (left) and integrated farming (right)

Farmers in Akkar work on a cropping calendar

Funded by the Agence Française de Développement, BASATINE is a consortium led by CARE International Lebanon, in partnership with the Georges N. Frem Foundation, Berytech Foundation, Al Majmoua, Mercy Corps and the Lebanese Organization for Studies and Training.

CD4 initiates its second phase

Majdel el Koura women coop takes part in a capacity building training

Building up on the success of the first phase, we will provide the selected cooperatives with workshops and coaching sessions in cooperative governance and product development whilst creating market linkages.

CD4 is a U.S. Agency for International Development (USAID) funded program, implemented by Land O'Lakes Venture 37 in partnership with GNFF

STP farewells the academic year

Our Student Transport Program enabled our students to safely commute from their villages to the Lebanese University and to their Technical Institutes.

We wish our students a restful summer break!

TAJ promotes well-being and personal growth

LEAD participants work towards building their life project

Time to unwind during the oriental dancing classes!
