NEWS LETTER

In tribute to our late founder Georges N. Frem, we proudly introduce the inaugural GNFF Youth Day, a new annual tradition that embodies his commitment to nurturing young minds. He fervently believed in their power to shape our world, in their potential to dream big and in their capacity to turn those dreams into reality.

This year, we embark on this journey with a focus on careers and well-being, understanding that the foundation of a prosperous future lies in the balance between professional success and personal health.

While we continue to support growers, processors, and SMEs to ensure their growth and sustainability, GNFF spearheaded initiatives that empower parents with the knowledge and resources they need to offer the utmost support to their children.
